Instructor™ is Sarine's polished and semi-polished diamond Cut & Symmetry analysis and grading software. It is the successor to the renowned DiaVision™ software, and a revolutionary upgrade for manufacturers, graders, polishers and traders alike. Instructor™ is used by the leading gemological institutes and laboratories worldwide to assess a polished diamond's Cut grade.

- Supports leading grading standards such as GIA, AGS, IGI, HRD, CGL, AGL
- Enables recut optimization through asymmetrical planning
- Compatible with Sarine systems including DiaScan™, DiaMension™HD, DiaMark™HD, to accommodate a wide range of diamond sizes and types

Cut & Symmetry Grading

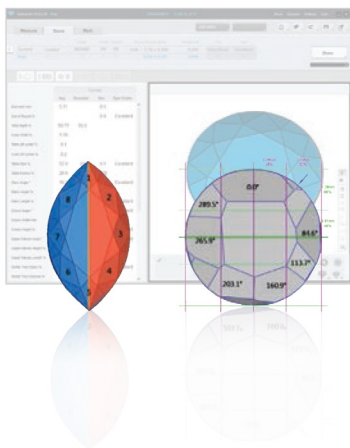

- Fast and comprehensive Cut & Symmetry measurement and analysis, providing 3D views and printable reports
- High-precision measurement and analysis
- Supports user-defined grading criteria and customized reports

Maximize Potential

- Advanced virtual tools identify optimal recut plan prior to polishing
- Guides and tracks recut process through sequential polishing steps to achieve optimal diamond value
- Increases finished diamond value by an average of 1% to 4%

Rich Tool Box

- Easily reveals the diamond's risk and potential using borderline alerts
- Supports all diamond shapes, including custom made shapes
- Alerts user in borderline grading cases
- Provides innovative tools and guides including mirror symmetry, crossbar, excluders, Hearts & Arrows view and more
