

DiaMark™ Z

Manufacturing
Instructions

Rough
Planning

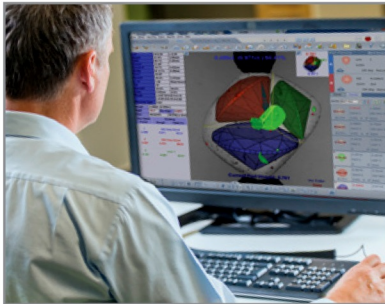

Safe

DiaMark™ Z is the industry-standard laser marking system that engraves cutting instructions on rough diamonds, following the planning process. DiaMark™ Z complements the DiaExpert™ rough diamond modeling platform and the world-leading Advisor™ rough planning software, producing an optimal and comprehensive rough planning solution.

- ▶ Seamlessly links the diamond planning stage with the diamond cutting process
- ▶ Allows efficient data flow between manufacturing plant departments by marking sawing lines, table, culet and girdle reference lines and shaping models for bruting
- ▶ Add-on unit to the DiaExpert™ platform

Manufacturing Instructions

- Implements Advisor™ planning through precise marking
- Eliminates discrepancies between planning and production phases
- High-precision, vivid black marked lines, overcome human limitations
- Different line types and symbols improve communication between the planning department and the factory

DiaMark™ Z Device

- Extremely fast laser marking, using Sarine's proprietary low-power laser, ensuring greater throughput
- Very high laser reliability due to state-of-the-art fiber-optic technology designed for harsh industrial conditions
- Controllable laser parameters, enabling optimization of laser marks as a function of stone characteristics

LeoBlu is the official Representative & service provider of Sarine Technologies for :
