Cost
Effective

The DiaScribe™ is the most cost-effective laser inscription system for diamonds. It allows you to inscribe the diamond's serial number for your protection and your customer's confidence, brand it with your company name or logo, or add a personalized message. You can set any font or character-set to be used in the inscription and even create beautiful graphic inscriptions on the girdle of your polished diamonds.

- Fast and cost effective
- Allows to Identify and protect your diamond with its serial/certificate number
- Enables you to brand your diamonds with your company logo

Beautiful Girdle Inscription

- Create your unique signature on your diamonds
- Offer your customer the option of a personalized message inscription
- Diamond inscriptions available in virtually any language using any Windows® True-Type® font
- Import any logo or image as *.bmp, *.jpg, or *.gif file
- Use the optional 'Inscription Viewer' feature for instant and automatic viewing of the inscribed stone

DiaScribe™ Device

- Fast and accurate laser inscription system
- Supports inter-switchable lenses for varying required stone sizes
- Available in multi lens (ML) or single lens (SL)
- Supports all diamond shapes
- Inscription line width - 5 micron
- Inscription depth - about 10 micron
- Text and logo inscription size – minimum: ~25 microns high, maximum: unlimited (restricted by the girdle height)
