

Quazer™

Minimal Risk

Pie Sawing

Green Laser Tech.

The Quazer™ is an advanced high quality, green laser diamond sawing and shaping system, offering the combined benefits of high productivity and profitability, low risk of breakage and dynamic profile cutting options.

The Quazer's utilization of a high-end green laser has proven its effectiveness in sawing high tension stones whilst maintaining near-zero breakage rates.

- Minimal breakage
- Minimal weight loss due to green laser technology and double-sided sawing cassette
- High productivity
- Enables automatic pie cut sawing through the Strategist™
- Smooth cutting surface
- Fast return on investment

Laser Sawing

- Minimal weight loss due to green laser technology and double-sided sawing cassette
- Smooth cutting surface achieved by application of green laser technology and high quality motion system
- Maximized productivity by processing up to 18 dops in a single batch

Pie Sawing Capabilities

- Fully automated pie sawing in a single process when used with the Strategist™ product
- Accurate results
- Circumvents human errors
- Simple and straightforward interface enables planning and executing pie sawing

Shaping Capabilities

- Supports a wide variety of Cut shapes and fancy shapes
- Imports shapes from Advisor™ planning solution
- Enables to preview and fine-tune the semi-polished shape prior to cutting

Quazer™ Machine

- Large working area allows processing numerous stones in a single batch
- High durability and low maintenance
- 16W high power green diode laser provides high productivity and shorter processing time
